## MANAGEMENT DISCUSSION & ANALYSIS

### ECONOMIC OVERVIEW

#### Global Economy

As per IMF, following a broad-based upswing in cyclical growth that lasted nearly two years, the global economic expansion decelerated in the second half of 2018. Activity softened amid an increase in trade tensions and tariff hikes between the United States of America and China, a decline in business confidence, a tightening of financial conditions, and higher policy uncertainty across many economies. Against this global backdrop, a combination of country- and sector-specific factors further reduced momentum. After peaking at close to 4 percent in 2017, global growth remained strong, at 3.8 percent in the first half of 2018, but dropped to 3.2 percent in the second half of the year.

Reflecting the slowdown in activity in the latter half of 2018 and the first half of 2019, global growth is set to moderate from 3.6 percent in 2018 to 3.3 percent in 2019, and then to return to 3.6 percent in 2020. The projected pickup in the second half of 2019 is predicated on an ongoing build-up of policy stimulus in China, recent improvements in global financial market sentiment, the waning of some temporary drags on growth in the euro area, and a gradual stabilization of conditions in stressed emerging market economies. The outlook for inflation largely mirrors the prospects for growth and commodity prices. Inflation is projected to remain broadly at current levels for the advanced economy group, while for the emerging market and developing economy, it is set to resume its steady decline of the past decade after a temporary modest rise this year.

#### Indian Economy

India's economy grew slower than expected at 6.8% for the year 2018-19 which was led by slowdown in the H2 of 2018-19 mainly led by NBFCs which has been under severe liquidity pressure affecting consumption finance as well as rural distress adding it to it. Responding to the emergent situation, the Reserve Bank of India cut the policy rate by 25 basis points or 0.25 per cent making it three cuts in a row. The CPI Inflation decreased to 3.4% in 2018-19 from 3.6% in 2017-18. India's per-capita income increased 10% to ₹ 10,534 per month in 2018-19 from ₹ 9,580 in FY19 which is an indicator of the prosperity of a country.

The Economic Survey projected a GDP growth at 7 per cent in the 2019-20 fiscal year. India may face challenge on the fiscal front following the economic slowdown that's expected to impact tax collections amid rising state expenditure on the farm sector. The other challenges may include oil prices after Iran sanctions, below-target revenue from the Goods and Services Tax, sourcing funds for big schemes, farmer's income and healthcare.

Investment, especially private investment, is the "key driver" that drives demand, creates capacity, increases labour productivity, introduces new technology, allows creative destruction, and generates jobs.

As articulated by the Prime Minister, Shri. Narendra Modi, India aims to grow into a USD 5 trillion economy by 2024-25, which will make India the third-largest economy in the world. Given 4% inflation, as the Monetary Policy Framework specified by the Government for the Reserve Bank of India, this requires real annual growth rate in GDP of 8%.

#### Industry Scenario

The Indian Wire & Cables Industry was estimated to be of ₹ 596 Bn in FY19 which is further estimated to grow to ₹ 686 Bn in FY20. The industry size was ₹ 393 Bn in FY16. The factors behind the cable industry growth in the industry has been and will be due to the huge growth in infrastructure by the government majorly led by investments in smart cities, railways, metro rails, airport development and modernization, freight corridors, power sector, water desalination, sewage treatment, building automation and hydrocarbon sector etc.

The cables and wires industry in India has seen many improvements in the past decade. It has grown from a small industry to a substantially large one during this period. Increased infrastructure spending by the government will boost growth in cables and wires as new construction activities will increase demand for elastomeric and flexible cables, development in infrastructure drives growth for commercial and industrial buildings thus increasing demand for building wires and LV cables. Demand for fire survival cables will be supported by metro, airport and commercial real estate projects. Changing trends in relation to home improvements and increasing disposable incomes to boost demand for retail building wires segment.

The prospects of the Wire and Cable industry are interlinked with the other industries viz: Power, Telecom, Railways, Aviation, Water, FMCG, Real estate, Steel, Cement, Refineries and Infrastructure etc. With investments across different infrastructure segments in the background of government initiatives, the demand for cables is expected to increase considerably.

With the growth of other related industries, the Indian Wire and Cable industry is indeed bound to grow & prosper.

## COMPANY OVERVIEW

Cords Cable Industries Limited (CORDS) is a specialised Control & Instrumentation cable company offering wide range of cable products to multiple industries. CORDS has over 3 decades of rich experience and enjoys a strong brand image, especially in the B2B segment. CORDS designs, develops and manufactures a varied range of Instrumentation, Control, Thermocouple Extension / Compensating, Communication and Power Cables. The company's state of the art manufacturing plants are located at Alwar in Rajasthan.

CORDS is in the business of providing cost-effective and quality solutions for various electrical connectivity requirements. CORDS has carved a niche in manufacturing of customised cables as per the customer's specifications. 95% of the company's orders are based on customer specifications. 81% of the company's cable comprises of Instrumentation & control cables and balance 19% comprises of Power cables. Investments in infrastructure and various industries will prove to be a big positive for the company. CORDS continuously strives to achieve higher efficiencies, cost control, better preventive maintenance and focuses on improving its product mix to attain economies of scale.

Company's current capacity stands at 65,000 Kms p.a. spread across 2 manufacturing facilities in Rajasthan. Chopanki unit has a capacity of 30,000 Kms p.a. while Kahrani unit has a capacity of 35,000 kms p.a. The wire and cable manufactured conform to International standards such as EN, BS, IEC & VDE. The cables cater to various areas which include oil & gas, hydrocarbons, airports, railways, metro rail, smart cities as well as power sector.

## OPPORTUNITIES IN VARIOUS SECTORS

### Oil & Gas

As per IBEF, the oil and gas sector is among the eight core industries in India and plays a major role in influencing decision making for all the other important sections of the economy. India's economic growth is closely related to energy demand; therefore the need for oil and gas is projected to grow more, thereby making the sector quite conducive for investment.

The Government of India has adopted several policies to fulfil the increasing demand. The government has allowed 100 per cent Foreign Direct Investment (FDI) in many segments of the sector, including natural gas, petroleum products, and refineries, among others. Today, it attracts both domestic and foreign investment. India is expected to be one of the largest contributors to non-OECD petroleum consumption growth globally. Oil imports rose sharply to US\$ 87.37 billion in 2017-18 from US\$ 70.72 billion in 2016-17. India retained its spot as the third largest consumer of oil in the world in 2017 with consumption of 4.69 mbpd of oil in 2017, compared to 4.56 mbpd in 2016.

According to data released by the Department of Industrial Policy and Promotion (DIPP), the petroleum and natural

gas sector attracted FDI worth US\$ 7.00 billion between April 2000 and December 2018. Energy demand of India is anticipated to grow faster than energy demand of all major economies, on the back of continuous robust economic growth. Consequently, India's energy demand as a percentage of global energy demand is expected to rise to 11 per cent in 2040 from 5.58 per cent in 2017. Crude oil consumption is expected to grow at a CAGR of 3.60 per cent to 500 million tonnes by 2040 from 221.76 million tonnes in 2017. Natural Gas consumption is forecasted to increase at a CAGR of 4.31 per cent to 143.08 million tonnes by 2040 from 54.20 million tonnes in 2017. The growth in the oil and gas industry will lead to growth in speciality & control cables.

### Railway

Cables are an integral part of the railway infrastructure for current supply, control tasks, data transmission etc. In the Budget 2019, government proposed to use public-private partnerships to unleash faster development and completion of tracks, rolling-stock manufacturing and delivery of passenger freight services. Private investments are being pushed thanks to the ₹ 50-trillion investment required between 2018 and 2030, which the government would find difficult to generate by itself.

As much as ₹ 28,100 crore is expected to come during the current year from PPP initiatives. This will include station redevelopment. The Budget estimates government investment in railways to increase by a good 24 per cent to ₹ 65,837 crore from ₹ 53,060 crore in 2018-19. The boost for railway infrastructure will generate demand for cables industry as well.

During the financial year 2018-19, new Metro Rail projects for a total route length of 300 kms have been approved. Moreover, during 2019, nearly 210 kms metro lines have been operationalized. With this, a total of 657 kms of Metro Rail network has become functional across the country,

### Power

Power is one of the most critical components of infrastructure crucial for the economic growth and welfare of nations. The existence and development of adequate infrastructure is essential for sustained growth of the Indian economy. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. In order to meet the increasing demand for electricity in the country, massive addition to the installed generating capacity is required.

Between April 2000 and December 2018, the industry attracted US\$ 14.18 billion in Foreign Direct Investment

(FDI), accounting for 3.48 per cent of total FDI inflows in India.

In Budget 2019, Government proposed “one nation one grid” for affordable power to states. She said the much-needed power reforms — such as the power tariff reform — should be soon taken up. The Saubhagya – ‘Pradhan Mantri Sahaj Bijli Har Ghar Yojana’ — scheme was launched by Prime Minister Narendra Modi in September 2017 to achieve household electrification by providing last-mile connectivity and electricity connections to all households in rural and urban areas. 100% electrification target has been met in all states barring Chhattisgarh — where power penetration currently stands at 99.67%.

As per Central Electricity Authority estimates, total power generation (thermal, hydel and nuclear combined) is expected to grow 6.5% this fiscal — almost double of last year’s 3.5% growth). Total generation is likely to be around 1,330 billion in 2019-20, of which 85% would be thermal. All round supply through out the country will benefit the power cables in India for Cords.

### **Airport Infrastructure Development**

The civil aviation industry in India has emerged as one of the fastest growing industries in the country during the last three years. India is currently considered the third largest domestic civil aviation market in the world. Domestic passenger traffic grew YoY by 18.28 per cent to reach 243 million in FY18 and is expected to become 293.28 million in FY20E. International passenger grew YoY by 10.43 per cent to reach 65.48 million in FY18 and traffic is expected to become 76 million in FY20E.

According to data released by the Department of Industrial Policy and Promotion (DIPP), FDI inflows in India’s air transport sector (including air freight) reached US\$ 1,817.23 million between April 2000 and December 2018. India’s aviation industry is expected to witness ₹ 35,000 crore (US\$ 4.99 billion) investment in the next four years. The Indian government is planning to invest US\$ 1.83 billion for development of airport infrastructure along with aviation navigation services by 2026.

Specialized Cables are used for these types of developments and developing airport infrastructure indirectly increases usage of specialized cables

### **RISKS, THREATS AND CONCERNS**

**Finance Cost Risk:** Finance Cost risk arises due to payment of high rate of interest on term loans and other funds & non-fund based facilities being availed by the company from banks and other financial institutions. The company tries to minimize this risk by keeping a check on the interest rates charged by various banks and by

swapping its long term/short term loans with banks charging lesser interest rates.

**Liquidity Risk:** Liquidity risk is the risk that the company may be unable to meet short term financial demands. This usually occurs due to the inability to convert a security or hard asset to cash without a loss of capital or income in the process. The company manages the liquidity risk by ensuring the availability of adequate funds at all times to meet its liability obligations on before the due dates.

**Raw Material Availability and Price Fluctuations:** Scarce availability and price-volatility in Company’s Basic Raw Materials - Copper, Aluminium, Steel, and PVC etc. can severely impact the profits of the Company. To mitigate these risks, the Company inculcates MOUs with its suppliers, price-booking of raw materials, price escalation clauses for large orders and hedges these raw-materials on the commodity exchange.

**Foreign Exchange Risk:** Foreign exchange risk is a financial risk posed by an exposure to unanticipated changes in the exchange rate between two currencies. Company imports a part of its raw materials and is also engaged in export of its products. To mitigate this risk, the company resorts to forward booking where deemed appropriate.

**Human Resource Risk:** In the absence of quality human resources, the company may not be able to execute its growth plans. To mitigate this risk, the company places due importance to its human capital assets and invests in building and nurturing a strong talented pool to gain strategic edge and achieve operational excellence in all its goals.

### COMPANY'S PERFORMANCE/STATE OF COMPANY'S AFFAIRS

During the year under review, your company's total revenue stood at ₹41850.01 lacs as against ₹36713.53 lacs in the previous year. Your Company earned Profit Before Interest, Tax and Depreciation of ₹4093.91 lacs as against a PBITDA of ₹3721.37 lacs in the previous year. The interest cost was ₹2392.58 lac as against ₹2293.97 lacs in the previous year. The finance cost includes the Preference Share Dividend and tax thereon as and when approved and declared in Annual General Meeting (AGM). Preference Dividend paid in F.Y. 2017-18 was ₹ 16.86 lacs and in the FY 2018-19 was ₹19.29 lacs.

Your company earned profit after tax for the year of ₹736.25 lacs as against a PAT of ₹624.23 lacs earned in the previous year.

FY 2018-19 witnessed a lot of investment in infrastructure by government & private players in the focus areas of power, railway, metro rails, roads & related sectors. The cables are an integral part of all the development undertaken and hence its demand tends to move in tandem with it. The overall development also led to rise in demand of your company's products and is expected to continue given huge capital expenditures lined up for the upcoming years. As a result, company's net sales grew by 14% and profit after taxes grew by more than 18% for FY19 vs. FY18. Our efforts to manage the finance cost

has been showing in our performance for the year which only grew by about 4% whereas top line grew by much higher than that. Increased capacity utilization is expected to further improve financial performance of the company going forward.

#### Newly added prestigious export/domestic clients

Your company in the previous year has been approved by many reputed institutions and authorities as their vendor which testifies our excellent product quality. For the financial year ended 31<sup>st</sup> March, 2019

The Members

**CORDS CABLE INDUSTRIES LIMITED**

CIN: L74999DL1991PLC046092

Our Secretarial Audit Report of even date is to be read along with this letter:

1. Secretarial Audit is primarily audit of compliance of various provisions of Companies Act, 2013 and other laws as mentioned in the audit report. Audit is conducted for transactions taking place during financial year 2018-19 and it should not be considered audit for any previous period. The compliance of the provisions of Companies Act, 2013 and other laws as mentioned in the report is the responsibility of the management. Our examination was limited to the verification of procedures on test basis.

Further, it is not about audit of financials and accounting transactions of the Company. We have not verified the correctness and appropriateness of financial records, financial statements, books of accounts, other financials, compliances of income tax and other tax laws and in this regard we relied upon the audit done by statutory auditors of the Company.

2. In terms of Secretarial Standard on Meeting of the Board of Directors issued by The Institute of Company Secretaries of India, the company is required to pass resolution at the Board meeting specifying the list of laws applicable specifically to the company.

The list of laws specifically applicable to the company as mentioned at Para (VI) of the report is based on the resolution passed by the Board on 28<sup>th</sup> May, 2018.

3. Maintenance of secretarial record and its safe custody is the responsibility of the Company Secretary and other officers of the company. Our responsibility is to express an opinion on these secretarial records based on our audit.
4. We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial record required to be maintained under the Companies Act, 2013. The verification was done on test basis to ensure that correct facts are reflected in such records in order to form a reasonable view and opinion.
5. In case compliances of various statutory provisions we have also obtained management representation letter especially for transactions where it is not feasible as an auditor to form view and opinion regarding compliance of various provisions.
6. The Secretarial Audit report is neither an assurance as to the future viability of the company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company. Any person entering into transactions with the company should separately verify about the affairs of the company before such transaction keeping in view the nature of such transaction to be entered into with the Company.

## Independent Auditors' Report

**To the Members of  
Cords Cable Industries Limited**

### **Report on the Audit of Standalone Financial Statements**

#### **Opinion**

We have audited the accompanying standalone financial statements of Cords Cable Industries Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March 2019, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### **Key Audit Matters**

During our audit, we had not come across with any significant areas that require reporting under "Key Audit Matter" paragraph and hence we are not including the same in our audit report as per para (A59) of SA 701.

### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards prescribed under Section 133 of the Act read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) amendment Rules, 2016.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility for the Standalone Financial Statements**

Our responsibility is to express an opinion on these standalone Financial Statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit of the Standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including

the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the standalone financial statements.

#### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "**Annexure I**", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b) In our opinion, proper books of account as

required by law have been kept by the Company so far as it appears from our examination of those books.

- (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the Statement of changes in Equity dealt with by this Report are in agreement with the relevant books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) amendment Rules, 2016.
- (e) On the basis of the written representations received from the directors as on 31 March 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure II**" and
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
  - ii. The Company did not have any long term contracts including derivatives contracts for which there were any material foreseeable losses.
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

## **ANNEXURE II TO INDEPENDENT AUDITORS' REPORT — 31 MARCH 2019 (REFERRED TO IN OUR REPORT OF EVEN DATE)**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Cords Cable Industries Limited as at 31st March, 2019 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely

preparation of reliable financial information, as required under the Act.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and

operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- (a) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting but requires more strengthening and such internal financial controls over financial reporting were operating effectively during the period ended 31<sup>st</sup> March 2019, based on the internal control over financial reporting criteria established by the Company consisting the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Note 27: Significant accounting policies:**

This note provides a list of the significant accounting policies adopted in preparation of these financial statements. These policies have been consistently applied to all the years presented unless otherwise stated.

The financial statements were approved for issue by Board of Directors on 29th May, 2019.

**a) Basis of preparation:****i. Compliance with IND AS :**

These financial statements for the year ending 31<sup>st</sup> March, 2019 comply in all material aspects with Indian Accounting Standards (IND AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with rule 4 of the Companies (Indian Accounting standards) Rules, 2015 and other relevant provisions of the act.

**ii. Historical cost convention:**

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities and contingent consideration that are measured at fair value.
- Defined benefit obligations which are measured at fair value based on actuarial valuation.

**b) Foreign currency transactions:****i. Functional and presentation currencies:**

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in INR which is the functional and presentation currency for Cords Cable Industries Limited.

**ii. Transactions and Balances:**

Foreign currency transactions are translated into the functional currency at the exchange rates on the date of transaction. Foreign exchange gains and losses resulting from settlement of such transactions and from translation of monetary assets and liabilities at the year-end exchange rates are generally recognized in the profit and loss. They are deferred in equity if they relate to qualifying cash flow hedges.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the "Statement of Profit and Loss".

**c) Revenue recognition:**

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue is net of GST and net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

The company recognizes revenue when the amount can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities as described below. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement

**i. Sale of goods:**

**Timing of recognition:** Sale of goods is recognized when substantial risks and rewards of ownership are passed to the customers, depending on individual terms, and are stated net of trade discounts, rebates, incentives, subsidy and GST.

**Measurement of revenue:** Accumulated experience is used to estimate and provide for discounts, rebates, incentives and subsidies. No element of financing is deemed present as the sales are made with credit terms, which is consistent with market practice.

**d) Income recognition:**

- i. Interest income from debt instruments is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the

financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

- ii. Dividends are recognized in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount of the dividend can be measured reliably.
- iii. Revenue from royalty income is recognized on accrual basis.

**e) Government Grants:**

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions.

Government grants relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and reduce from corresponding cost.

Income from export incentives such as premium on sale of import licenses, duty drawback etc. are recognized on accrual basis to the extent the ultimate realization is reasonably certain.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other operating income.

**f) Income Tax:**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions which appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the Balance Sheet method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset will be realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in the Statement of Profit and Loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Minimum Alternative Tax (MAT) credit, which is equal to the excess of MAT (calculated in accordance with provisions of Section 115JB of the Income Tax Act, 1961) over normal income-tax is recognized as an item in deferred tax asset by crediting the Statement of Profit and Loss only when and to the extent there is convincing evidence that the Company will be able to avail the said credit against normal tax payable during the period of fifteen succeeding assessment years.

**g) Property, plant and equipment:**

Leasehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost, less accumulated depreciation/amortization and impairments, if any. Historical cost includes taxes, duties, freight and other incidental expenses related to acquisition and installation. Indirect expenses during construction period, which are required to bring the asset in the condition for its intended use by the management and are directly attributable to bringing the asset to its position, are also capitalized.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation on Property, Plant and Equipment is charged on straight line method on the basis of rates arrived at with reference to the useful life of the assets prescribed under Part C of Schedule II of the Companies Act, 2013.

The estimated useful lives are as mentioned below:

Type of Asset	Useful Lives (in years)
Factory Buildings	30
Furniture & Fittings	10
Plant & Machinery	15
Office Equipment	5
Tools and Instruments	15
Generator	15
Computer	3
Computer-Server	6
Vehicle (Car)	8
Vehicle (Bike)	10

**h) Depreciation and amortization**

Depreciation is calculated using the Straight Line Method. Depreciation is calculated using the useful life given in Schedule II to the Companies Act, 2013.

Depreciation on additions / deletions during the year is provided from the day in which the asset is capitalized up to the day in which the asset is disposed off.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

**i) Intangible Assets:**

**i. Intangible assets with finite useful life:**

Intangible assets with finite useful life are stated at cost of acquisition, less accumulated depreciation/amortization and impairment loss, if any. Cost includes taxes, duties and other incidental expenses related to acquisition and other incidental expenses.

Amortization is recognized in profit or loss on a straight-line basis over the estimated useful lives of respective intangible assets.

**ii. Research and Development:**

Capital expenditure on research and development is capitalized and depreciated as per accounting policy mentioned in para h and i above. Revenue expenditure is charged off in the year in which it is incurred.

**j) Investment property:**

Property (land or a building-or part of a building-or both) that is held for long term rental yields or for capital appreciation or both, rather than for:

- i. use in the production or supply of goods or services or for administrative purposes; or
- ii. Sale in the ordinary course of business.

is recognized as Investment Property in the books. Investment property is measured initially at its cost, including related transaction costs and, where applicable, borrowing costs. Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Depreciation is provided on all Investment Property on straight line basis, based on useful life of the assets determined in accordance with para "h" above.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

**k) Lease:****As a lessee**

Leases of property, plant and equipment where the company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary increase. Lease hold property includes land taken for perpetuity on payment of one time lumpsum amount which is shown at historical cost and not written down.

**l) Investment and Other financial assets:****i. Classification:**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.
- Classification of debt assets will be driven by the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has

made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**ii. Measurement:**

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

**Debt instruments**

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset.

- **Amortized Cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flow represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

**Equity instruments**

The company subsequently measures all equity investments at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognized in profit or loss as other income when the company's right to receive the dividend is established.

**iii. Impairment of financial assets:**

The Company assesses if there is any significant increase in credit risk pertaining to the assets and accordingly creates necessary provisions, wherever required.

**iv. De-recognition of financial assets:**

A financial asset is de-recognized only when

- The company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients or
- The contractual right to receive the cash flows of the financial assets expires.

Where the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized.

Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

**m) Derivatives and hedging activities:**

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Company designates certain derivatives as either:

- hedges of the fair value of recognized assets or liabilities or a firm commitment (fair value hedges)
- hedges of a particular risk associated with the cash flows of recognized assets and liabilities and highly probable forecast transactions (cash flow hedges).
- The Company documents at the inception of the hedging transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Company also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

**Cash flow hedge reserve**

The effective part of the changes in fair value of hedge instruments is recognized in other comprehensive income, while any ineffective part is recognized immediately in the statement of profit and loss.

**n) Inventories:**

Raw materials, packing materials, stores and spares are valued at lower of cost and net realizable value.

Work-in-progress, finished goods and stock-in-trade (traded goods) are valued at lower of cost and net realizable value.

By-products and unserviceable / damaged finished goods are valued at estimated net realizable value.

Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Cost is assigned on the basis of First In First Out. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**o) Trade Receivables:**

Trade receivables are recognized initially at fair value and subsequently measured at cost less provision for impairment.

**p) Trade and other payables:**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

**q) Borrowings:**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using effective interest rate method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down

occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

**r) Borrowing Cost**

General and specific borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

**s) Employee Benefits:**

**i. Short term obligations:**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services upto the end of the reporting and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

**ii. Provident fund:**

Provident fund contributions are made by the Company. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of the year.

**iii. Gratuity:**

Liabilities with regard to the gratuity benefits payable in future are determined by actuarial valuation at each Balance Sheet date using the Projected Unit Credit method and contributed to Employees Gratuity Fund. Actuarial gains and losses arising from changes in actuarial assumptions are recognized in other comprehensive income and shall not be reclassified to the Statement of Profit and Loss in a subsequent period.

**iv. Leave encashment / Compensated absences:**

The Company provides for the encashment of leave with pay subject to certain rules. The employees are entitled to accumulate leave for future encashment/utilization. The liability is provided based on the number of days of unutilized leave at each Balance Sheet date on the basis of an independent actuarial valuation. Actuarial gains and losses arising from changes in actuarial assumptions are recognized in the 'Statement of Profit and Loss'.

**t) Provisions and Contingent Liabilities:**

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

A contingent asset is disclosed, where an inflow of economic benefits is probable. An entity shall not recognize a contingent asset unless the recovery is virtually certain.

**u) Cash and Cash Equivalents:**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank Overdraft and cash credits are not included in the cash & cash equivalent according to Ind AS 7 as there is no arrangement for positive and negative balance fluctuation in those accounts, they are basically the integral part of loans and credit management.

**v) Impairment of assets:**

Intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units).

Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**w) Earnings Per Share**

i. Basic earnings per share: Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company.
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

ii. Diluted earnings per share: Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

**x) Contributed Equity:**

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**y) Foreign Currency**

The functional currency of the company is Indian Rupee. These financial statements are presented in Indian Rupees.

The foreign currency transactions are recorded on initial recognition in the functional currency by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of transaction.

The foreign currency monetary items are translated using the closing rate at the end of each reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those which they were translated on initial recognition during the period or in previous financial statements are recognized in statement of profit and loss in the period in which they arise.

**z) Dividend:**

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

**aa) Rounding off:**

All amounts disclosed in the financial statement and notes have been rounded off to the nearest Lacs, unless otherwise stated

**Note 28: Critical Estimates and Judgements**

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The preparation of the financial statements in conformity with GAAP requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. These estimates and associated assumptions are based on historical experience and management's best knowledge of current events and actions the Company may take in future.

Information about critical estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities are included in the following notes:

- (a) Estimation of defined benefit obligations
- (b) Estimation of current tax expenses and payable
- (c) Estimation of provisions and contingencies

**(a) Impairment of financial assets (including trade receivable)**

In accordance with IND AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets that are debt instruments, and are measured at amortized cost e.g., Loans, Debt Securities, Deposits and Trade Receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18. The Company follows 'Simplified Approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. Trade receivables are recognised initially at fair value and subsequently measured at cost less provision for impairment. As a practical expedient the Company has adopted 'Simplified Approach' using the provision matrix method for recognition of expected loss on trade receivables. The provision matrix is based on three years rolling average default rates observed over the expected life of the trade receivables and is adjusted for forward-looking estimates. These average default rates are applied on total credit risk exposure on trade receivables and outstanding for more than one year at the reporting date to determine lifetime Expected Credit Losses. Company has a policy to recognize expected credit loss only if there is reasonable certainty of default from trade receivable. To be prudent in booking of expected credit loss, company recognize the expected credit loss when legal right to recover the debt expires which is normally after 3 years of raising sales invoice and that to on the basis of management expectation of recoverability.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL impairment loss allowance (or reversal) recognized during the period is recognized under the head 'Other Expenses' in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

**i. Financial assets measured as at amortized cost:** ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount.

ii. **Debt instruments measured at FVTPL:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. The change in fair value is taken to the statement of Profit and Loss.

iii. **Debt instruments measured at FVTOCI:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'Accumulated Impairment Amount' in the OCI. The Company does not have any Purchased or Originated Credit Impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

**(b) Estimation of defined benefit obligations**

The liabilities of the Company arising from employee benefit obligations and the related current service cost, are determined on an actuarial basis using various assumptions. Refer note 29 for significant assumptions used.

**(c) Estimation of current tax expenses and payable**

Taxes recognized in the financial statements reflect management's best estimate of the outcome based on the facts known at the balance sheet date. These facts include but are not limited to interpretation of tax laws of various jurisdictions where the company operates. Any difference between the estimates and final tax assessments will impact the income tax as well the resulting assets and liabilities.

**(d) Estimation of provisions and contingencies**

Provisions are liabilities of uncertain amount or timing recognized where a legal or constructive obligation exists at the balance sheet date, as a result of a past event, where the amount of the obligation can be reliably estimated and where the outflow of economic benefit is probable. Contingent liabilities are possible obligations that may arise from past event whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events which are not fully within the control of the Company. The Company exercises judgement and estimates in recognizing the provisions and assessing the exposure to contingent liabilities relating to pending litigations. Judgment is necessary in assessing the likelihood of the success of the pending claim and to quantify the possible range of financial settlement. Due to this inherent uncertainty in the evaluation process, actual losses may be different from originally estimated provision. Warranty provisions are determined based on the historical percentage of warranty expense to sales for the same types of goods for which the warranty is currently being determined. The same percentage to the sales is applied for the current accounting period to derive the warranty expense to be accrued. It is very unlikely that actual warranty claims will exactly match the historical warranty percentage, so such estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

**(e) FAIR VALUE MEASUREMENT**

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

**Level 1-** Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

**Level 2-** Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

**Level 3-** Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Other Fair Value related disclosures are given in the relevant notes.

**I. BASIC AND DILUTED EARNINGS PER SHARE:**

The basic earnings per equity share is computed by dividing the net profit attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of equity shares and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been actually issued at fair value.

Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The number of equity shares and potential diluted equity shares are adjusted for stock split, bonus shares, Convertible Preference Shares, Share Warrants and the potential dilutive effect of Employee Stock Option Plan as appropriate.

Basic & Diluted Earnings per share of the company is as under:

Particulars	2018-19	2017-18
Profit for the year	736.25	624.23
Profit after Tax attributable to equity shareholders (A) ₹	736.25	624.23
Weighted Average No. of Share-Basic (B)	12927780	12927780
Add: Diluted Potential Equity Shares	-	-
Weighted Avg. No. of Equity Shares -Diluted (C)	12927780	12927780
Nominal Value per Share (₹)	10	10
Earnings per Share-Basic(Rs) (A / B)	5.70	4.83
Earnings per Share-Diluted(Rs) (A / C)	5.70	4.83

**J. DEFERRED TAX:**

The deferred tax liability (Net) as at **31<sup>st</sup> March 2019** comprises of the following:

(Amount in Lakhs)

Particulars	Deferred Tax Asset/ (Liability) as at 01-04-2018	Credit/ (Charge)/ Reversed during 2018-19	Deferred Tax asset/ (Liability) as at 31-03-2019

<b>Total</b>	<b>(795.96)</b>	<b>(37.62)</b>	<b>(833.58)</b>

**K. Fair Value Hierarchy:**

This Section explains the judgements and estimates made in determining fair values of financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in financial statements. To provide an indication about reliability of inputs used in determining fair value, group has classified its financial instruments into three levels prescribed under accounting standard. An explanation of each level follows underneath the table:

Financial assets and liabilities measured at fair value - recurring fair value measurements as at 31st March, 2019	Note Reference	Level 1	Level 2	Level 3	Total
<b>Financial assets</b>					
Investments at FVTPL	4				
- Mutual Fund		27.75	-	-	27.75
- ULIP		20.50	-	-	20.50

Financial assets and liabilities measured at fair value - recurring fair value measurements as at 31st March, 2018	Note Reference	Level 1	Level 2	Level 3	Total
<b>Financial assets</b>					
Investments at FVTPL	4				
- Mutual Fund		29.47	-	-	29.47
- ULIP		13.63	-	-	13.63
- Others		3.13	-	-	3.13

Fair value of financial instruments as referred to in note above has been classified into three categories depending on inputs used in valuation technique. Hierarchy gives highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements).

The categories used are as follows:

**Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2:** The fair value of Financial Instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data rely as little as possible on entity specific estimates.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. Company's policy is to recognize transfers into and transfer out of fair value hierarchy levels as at the end of the reporting period.
