SHUBHAJIT ROY  
New Delhi, June 21

IN A major diplomatic outreach to its neighbours, India said Saturday it will evacuate nationals of Nepal and Sri Lanka who are stranded in Iran and want to leave the country.

Officials in Delhi framed it as an example of India's "neighbourhood first policy" – of helping its neighbours in times of crisis, be it conflict, natural calamity or pandemic.

This announcement came on the day two more flights, operated by the Iranian Mahan Air, landed in Delhi.

The Indian embassy in Tehran, in a post on X, said, "On request of the Governments of Nepal and Sri Lanka, the Indian Embassy's evacuation efforts in Iran will also cover citizens of Nepal and Sri Lanka."

"The citizens of Nepal and Sri Lanka may urgently reach out to the Embassy, either on

MILLIONS ACROSS India rolled out their yoga mats and stretched and meditated to mark the 11th International Day of Yoga, with Prime Minister Narendra Modi leading the celebrations from the coastal city of Visakhapatnam in Andhra Pradesh.

Dressed in all-white, Modi led a mass yoga demonstration at Visakhapatnam's RK beach and said that at a time when the whole world is going through some kind of tensions, yoga gives a direction of peace and brings oneness.

"Yoga is the pause button that humanity needs to breathe, to balance, to become whole again," he said.

"My request to the world – let this yoga day mark the beginning of yoga for humanity 2.0, where inner peace becomes global policy," the PM said. He said the theme of this year's International Day of Yoga is 'Yoga for One Earth, One Health', which reflects a deep truth that the health of every entity on Earth is interconnected. APPLE INC executives have held internal discussions about potentially bidding for the artificial intelligence startup Perplexity AI, seeking to address the need for more AI talent and technology.

Adrian Perica, the company's head of mergers and acquisitions, has weighed the idea with services chief Eddy Cue and top AI decision-makers, according to people with knowledge of the matter. Such a deal would help Apple develop an AI-based search engine, part of efforts to cope with the potential loss of a longstanding arrangement with Google. That partnership, which involves making Google
